Purpose of this Document

The purpose of this manual is to assist the users to familiarize themselves with the axis GFN project and to help them use it in an effective manner. It provides conceptual information about the project and step - by - step task instructions. This manual is divided into sections and sub sections based on different tasks to be performed on the GFN project.

Intended Audience

The information in this manual is intended for Admin, Organization, Fund Manager and Donor who wants to know how the project fits with respect to their requirements.

This User Manual is applicable to the following profiles:

- Admin
- Organization
- Fund Manager
- Donor

Document Organization:

The manual is organized into different sections as follows:

Item	Description
Preface	The preface provides information about the users,
	manual organization, conventions used in the

	manual, etc.
Introduction	This chapter provides a brief introduction to GFN project.
Project Maintenance	This chapter provides a brief introduction to GFN project specific to online GFN donors.
Functionalities	This chapter provides a information about various working methods pertaining to GFN users such as donations done by the donor and it finally reaches to the organization.
File Format	This chapter provides information on the various file formats used for file uploads.

Document Conventions

The different conventions used in the manual are as follows:

Menu/Action Buttons

The menus and action buttons in the project are represented in white color. For example, clicking the Action button will be represented as follows:

Click Action button.

Menu Navigation

Menu navigation in the project is represented using arrows in this manual.

Notes, Caution, and warning

Important and useful information within in the text are organized into notes, cautions, and warnings, as appropriate throughout the document, preceded by relevant icons as shown below.

Successfully Added

A note gives some successfully message using the project.

Name

The Name field is required

A caution reminds the

user about the required field that has to be filled by the user.

Error while adding the Subject information

A warning message is to notify the user to take necessary action to resolve the errors.

Important Notes

Though this manual may define, limit and restrict the way you use this software or the purpose for and the environment in which you may use the software, this manual is not a statement on number of licenses granted to you nor does this document purport to grant you and cannot be construed to grant you any additional or expanded licenses other than those that are already granted to you.

This document may contain references to materials that may not be applicable to you. This document may not be restricted or tailored to

the type of licenses issued to you and may contain materials, functions, features and references not applicable to you and any reference to any materials herein should not be construed to mean grant of expanded or additional license(s). Certain modules, functionalities and features may not be applicable to the licenses issued to you. Also your use of this software is subject to the licenses purchased by you and the licensing terms and conditions.

This document is customized for you and this document may contain references to certain third - party components (product/product components) including but not limited to the third - party components that are part of or are likely to be part of the environment, including references to procedural steps, configurations, screens and other material related to such components. The references may be based on you requesting for, opting for or indicating preference for or towards customized and or consolidated operating and or other user documentation, in which case you agree that you have acquired appropriate licenses for the products and components that allow for making such references in the customized literature. References to third - party components or specific versions thereof do not imply, in anyway, the supply or provision of such components by the licensor. The licensor does not make any recommendations or claims towards the components or any specific versions of the components as regards their use, combination or suitability in any specific environment or for any specific purpose. The licensor does not claim that the components are compatible with product or software supplied or that the services performed or the documentation provided or procedures described herein support these products/components or specific versions of these components in any specific way. The third - party information or references mentioned or included herewith are only for the reference purposes. Licensor does not make any claims towards these products or claim any relationship with providers or copyright owners of such components or references. The licensor, licensor's distributors,

partners and resellers shall have no liability in relation to the products, components and the references.

1. Introduction

This chapter provides a brief overview of the GFN project and its features. It also provides information about the minimum system requirements for working with GFN project and how you can log in and log out from GFN. In addition, it provides you information about the different interface elements and some of the common tasks that you can perform in GFN project.

This chapter contains the following sections:

- Getting started with GFN Project
- Knowing GFN Project Interface Elements

1.1. GFN Project Overview

JWTech has project the GFN to supports features and services such creation and online donation process from donor to fund manager who is related to particular organization. The project used to support the organizations to get donations from the donor in online.

1.2. Getting Started with GFN Project

This section provides information on getting started with the GFN project as well as covers details on user navigation, common tasks, and user interfaces of GFN project.

The topics covered under this section are as follows:

- Login to GFN.
- GFN Project Home Page.
- Organizing the Dashboard.
- Navigating GFN Project.

1.2 .1. Login to GFN Project

GFN is a web based project. To access the project, you would need a PC with standard browser. To access the GFN project, please use one of the following recommended internet browser.

- Internet Explorer
- Mozilla Firefox
- Chrome

To access the GFN users will need to have a valid user ID and password. Also, the user account needs to be active and authorized to be able to login to the GFN project.

If you provide an invalid login ID/password, the GFN project will display warning message to provide the correct user ID/password. To log into the project:

- 1. Open the web browser
- 2. Type in the URL of the project in the web browser
- 3. The GFN project home page is displayed
- 4. Enter your User ID and Password and then click LOGIN button

5. When user login to the page, if the user wants to change his password click on reset button in header then a new is displayed as shown in below

🗋 gfn.dinkhoo.com 🗙 👿 Dor	nor - Wikiped 🗙 🛛 🌀 gfn::Bu	ug - ZenTa 🗙 📔 🚜 phpM	yAdmin 🗙 🛛 🚜 phpM	yAdmin 🗙 🛛 🚜 phpMy	Admin 🗙 🛛 M Inbox	(4,217) - n 🗙 🛛 🝐 eMedic	all - Goog 🗙 📔 e-medi	call flow < × +	-	ø ×

1. Enter the old password and the new password. Re-Enter the new password again to confirm the new password.

2. Click **submit** button. The password is changed and you are logged into GFN and the Home Page is displayed.

When you login to the project for the first time, you will be prompted by the project to change the password. You must change the password to continue using the project
 You should also periodically change your password for security purposes

1.2.2. GFN Project Home Page

The dashboard Page is the default page displayed to all user based on roles the dashboard shows different data.

1.2.3. Navigating GFN Project

The GFN project features are organized in different menus and submenus for easier access. You can use the menus and submenus for a user - friendly navigation of the project.

To go to a function, click any of the menu tabs.

1.3 Knowing GFN Project Interface Elements

GFN project is a web based project. You can access it through a web browser such as Internet Explorer or Mozilla Firefox. This section describes the different elements in the GFN project and how to perform different tasks. This section also describes some of the common tasks that can be performed in the project. It is recommended that you make yourself familiar with this section to help you better understand the terminology used in this manual.

The project is displayed in pages (screens) in your web browser. GFN project uses different types of pages such as listing page, add page,

modify page, history page, popup, etc. The actions that you can perform in a page of same type are similar in nature.

Below is a typical list page in the project. Some of the elements in the page are Common Tasks in GFN Project.

This section provides information about some of the common features that are similar across the GFN project. These are features that you might require in the effective usage of the project. It is highly recommended that you make yourself familiar with this section before starting with the project.

This section includes the following:

- Searching for a particular user
- View
- Editing
- Uploads

Searching for a particular user

When large number of users is placed, then the list page may span multiple pages. In such cases, identifying a specific user becomes a little trouble some. In such cases, you can use the search feature in the list pages to search for the specific user.

To search for an item in the list page:

- 1. Based on the list page you are in, enter/select the appropriate search criteria in the search fields and click **search** button.
- 2. The results matching the search criteria are displayed in the list page. If the search results are present in more than one page, use the page numbers available at the bottom right of the page to browse through the different pages.

View

In GFN, Records can be viewed by the user.

To view an item:

- 1. In the list page, select the item that you want to view and click **Eye icon** to view.
- 2. Then you can reach the view page which is selected before like shown in below

FUND MANAGER WORK FLOW:

FUND MANAGER REGISTRATION:

To join in GFN system first FUND MANAGER signup with valid data like **First Name**, **Last Name**, **Email**, **Password** and country. **Email** and **Password** is used to login after Fund Manager is approved.

After enter the data click **Sign Up** then a success message appears that Hospital registered successfully as shown below.

Now go for mail verification to get Confirm registration alert message from GFN. Click on the message and then click on activation link

After that fund manager get a success message like this

WoW ! Your Account is Now Activated : Login here

Now supervisor can login by using their email and password which is entered before in the signup form and then click on

2.2. FUND MANAGER Functionalities:

After the registration, fund manager can login with the email id that given in registration and also password.

After logged in as fund manager can view his/her profile page contains their Profile details. If the fund manager couldn't approved by the **Admin** then they couldn't get donations from the donors. Fund manager profile details can like this

 When the organization wants to go further usage, they need to approve from the Fund manager. So they have to apply for that.
 For this they go for application process.

- Organization has to add some documents in the application process in order to apply the application. By using these documents Fund manager can approve or rejects the Organization.
- □ For this Click on Documents option in the side menu, then we can reach uploads page which is shown in below.

DONOR WORK FLOW:

4.1. DONOR REGISTRATION:

To join in GFN system first DONOR signup with valid data like **First Name, Last Name, Email, Password and Country. Email** and **Password** is used to login after DONOR approved.

	Cear For 1	Need
Storm 1	Register a new membershi	hip
	donor	· 1
	PRAVEEN	
	GOLLU	1 / / / / / / / / / / / / / / / / / / /
	sravanthi.lucky40@gmail.com	3
		A
	India	· 4
	✓ I agree terms and conditions	
	Register	and the second s
	l already have a membership	

After enter the data click **Sign Up** then a success message appears that Donor registered successfully as shown below.

Now go for mail verification to get Confirm registration alert message from GFN. Click on the message and then click on activation link

After that Donor will get a success message like this

WoW ! Your Account is Now Activated : Login here

Now Donor can login by using their email and password which is entered before in the signup form and then click on **Sign In**

4.2. Donor Functionalities:

After the Donor is created his account in the system, Donor can login with the email id that given in Donor Registration and password.

(Changel	Gear For Need
CA CA	Sign in to start your session sravanthi.lucky40@gmail.com
	Sign In Sign In I forgot my password Register a new membership
	register a new memoersmp

After logged in as Donor, can view his/her profile page contains Donor Profile. If the Donor couldn't accepted by the **Admin** then Donor can see their profile but couldn't done donations, it can visible like this

R Gear For Need	=		sanjay-donor
